Tools for Growth Development

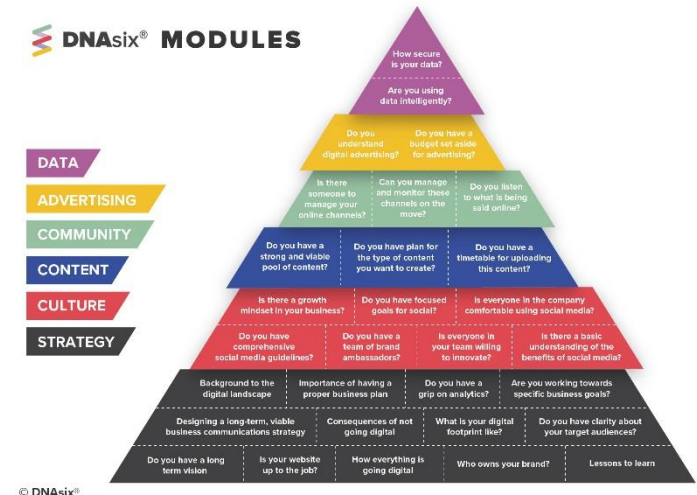

Advanced diagnostics designed to unlock growth within your business

Growth diagnostic support

Our Growth Advisors can provide comprehensive business diagnostics through 'Growth Mapper' which includes a set of assessment questions designed to underpin coaching and growth advice

Grow My Company gives you a benchmark guide of your staffing and turnover within your industry sector

The digital coaching programme 'DNAsix' can help your business survive, compete and ultimately thrive in today's digital marketplace

Growth Champions

Funded support from specialists

Role of Growth Champions

We can provide a networked collection of local business consultants, all carefully curated as experts in their respected fields

35 experts covering finance, strategy, sales, marketing, planning, IT and export across all industry sectors

High growth businesses can receive a free day of specialist support, fully funded by the Growth Hub, using an expert in any field to help you to overcome specific barriers to growth

PEER Networks Programme

For ambitious business leaders with an appetite for rapid and high growth

What is the Programme?

The PEER Networks programme helps leaders of scale-up businesses and those with growth potential through a series of peer to peer groups facilitated by experts in their field

They focus on overcoming barriers to growth with solution driven outcomes

It comprises business cohorts with up to 8 members, working with like-minded peers to help you develop through carefully managed online strategic growth development programmes
