

Business Foreign Exchange & Global Payments Solutions

As part of our ongoing endeavours to help clients better understand and manage their businesses, The British Chambers of Commerce has identified that many small and mid-sized businesses are being underserved and overcharged by their traditional banks.

To help you navigate the complex and often volatile world of foreign exchange, we've partnered with global payments specialists, moneycorp.

International Business Support

Helping you access global markets

Paying overseas suppliers? Managing international payroll? Importing/exporting? Whatever your needs, The British Chambers of Commerce understand every business is different. From quick and easy online payments, through to hedging strategies and mass payments on a global scale, moneycorp can have the right solution for your business.

Save money

Built from their experience of transferring billions of £'s in currency since 1979, moneycorp's easy to use online payments platform has been designed to help save you time and money.

Manage your FX risk

Working collaboratively with clients, moneycorp develop a deep understanding of how currency volatility impacts your business, before delivering a risk management strategy created to meet your specific objectives.

Fast, easy payments

For businesses with complex payment needs or large volumes of international payments, moneycorp offers end-to-end payment solutions which enable you to process, execute and deliver multiple payments on a global scale, quickly, easily and securely from a single payment gateway.

Why businesses use moneycorp

Competitive and transparent pricing

moneycorp gives your business access to 14+ liquidity providers ensuring highly competitive exchange rates.

Expert service & market intelligence

Founded in 1979 as your eyes and ears in the market, we tailor our products to your business and provide a level of service that banks often find too resource intensive.

Security of funds

All relevant client funds are safeguarded and held in segregated client accounts.

Online platform available 24/7

Trade up to 33 currencies online, with many more available over the phone. Real-time access to view transactional history and all funds on account.

Free multi-currency accounts

Ability to hold multiple currencies on account and transact as and when you wish.

Free FX Audit

In depth review designed to help you minimise the impact rate volatility can have on your bottom line and cut the costs of your international payments.

Personal transfers

- Access great rates when making international bank-to-bank transfers.
- Travelling overseas frequently? Load multiple currencies on to one card and access your travel money at millions of locations worldwide with the moneycorp red explorer card.
